EXPERIENCE

EVINCE DEVELOPMENT | SOFTWARE ENGINEER
Nov 2022 - March 2024 | Ahmedabad, Gujarat
- Excelled in a full stack role, working on web applications, and mastering front-end and back-end technologies like Angular, TypeScript, Nest.js, Next.js, and video streaming.
- Proficient in building highly responsive user interfaces with Angular and TypeScript.
- **Tech Stack**: Node, JavaScript, MySQL, React, Firebase, Azure, Sockets, HTML, CSS, Git, AWS, RESTful, Emails, Scheduling

MOON TECHNOLABS | NODE.JS DEVELOPER
Oct 2021 - Nov 2022 | Ahmedabad, Gujarat
- At Moon Technolabs, my primary focus centered on Node.js, where I made impactful contributions to a variety of projects and research initiatives.
- As a back-end developer, I played a pivotal role in the development of APIs, enabling functionalities such as PDF generation with statistical graphs, scheduling, server-less computing, and telemetry using MQTT.
- **Tech Stack**: Node, JavaScript, Typescript, MySQL, PostgreSQL, Sockets, Git, AWS, RESTful, Micro-services, Redis, PDF, Scheduling, Server-less.

I-PANGRAM | MEAN STACK DEVELOPER
Jan 2020 - Oct 2021 | Surat, Gujarat
- At i-Pangram, I began my career by leading the Survey Booker CRM project. I managed API operations, ensured security measures, handled MySQL, and implemented email automation.
- I also delved into front-end development using React. This experience marked the inception of my professional journey.
- **Tech Stack**: Node, React, Angular, Typescript, JavaScript, MySQL, PostgreSQL, Sockets, Git, AWS, RESTful, Micro-services, Redis.

PROJECTS

SURVEY BOOKER | CRM
Jan 2020 – Oct 2021
- Developed multi-tenant CRM. Integrated features like activity email notifications, connecting Google/outlook mail/calendar, live chat and calling, and stripe/World-Pay payments.
- **Tools & Technologies**: Node.js, JavaScript, MySQL, React, Firebase, Azure, Sockets, HTML, CSS, Git, AWS, RESTful

NOMADIC INSIGHT | MARKET RESEARCH APPLICATION
November 2023 – March 2024
- Optimized existing application performance, reducing the response time from 5 minutes to under one second while implementing many new functionalities.
- Nomadic Insight serves as a Market Research Survey Aggregator, leveraging Node.js for the back-end and Angular for the front-end.

EDUCATION

GUJARAT TECH. UNIVERSITY
BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION
June 2019 | Bhuj, Gujarat
Cum. GPA: 6.14 / 10.0

SKILLS

PROGRAMMING
4+ years of experience:
JavaScript
1+ years of experience:
TypeScript • Python

TECHNOLOGY
Node.js • Nest
React • Angular • Next
MySQL • PostgreSQL
HTML • CSS • SCSS
Material UI • Tailwind • Bootstrap
Git/Github • AWS • Linux • Windows

COURSEWORK

ONLINE COURSES
JavaScript Fundamentals
Data Structures and Algorithms
Python Programming
Web Development (JavaScript, HTML, CSS)

INTERESTS

Problem Solving
Web Development
Data Science
User Experience (UX) Design
